Greetings chapter V. Did you notice that the weather gods blessed us with good weather whichever activity we had so far this month.

The Lattin's egg stuffing was a blast, the apple fritters were as advertised, delicious, I had 2 and then they served soup and chili. We ended up with a 120 mile ride and dry. What a great day.

Green Freeze 2 is now history. Did you notice something new in the Hinshaw's entry way. There were all the activities and their flyers along side our own Phil and Judy Funderburk with the \$500 gift card table's think they were just sharing body heat. It was 28 degrees at my house when I left home.

Green Freeze 2 was a success all around. Kudos to Lisa Alberts for set up and registration, Ron and Joni Gerhing the 50/25/25, Chet and Paula Olson for the caffeine fix, Jim and Kathy Fernen for the sugar fix and last but not least Ron and Margaret Silverman for the sweep.

With days like these we'll get through winter as sane as we can be. Go Chapter V keep the corners of your mouths curled up and the rubber side down.

Dennis Ensey

Co-Director - Vonda Brest

I am going to give you my perspective on the new Goldwing. I find it a little odd or I am just so used to being with bikes that are so beautiful.

First thought is it looks like a scooter. I think Honda could have come up with something a little more genius. 37 years they have been making this bike. The two tone color scheme, really. Don't we already have that, a fully painted bike with extra chrome! Or does this mean less chrome buying, think of that. Oh, No!

4 colors, you would have thought they would have premiered this bike with something amazing. And I don't see much in new passenger comfort. Not talking about springs and such, where is my head rest, gee I miss that Cavalcade.

No electronically adjusted window, but you can put a route on the navigation system and then share it on line with other members. I do like that.

Well on to better things. Cornbeef! It originated as a way to preserve the meat so it could be eaten after Lent. By pickling the Corned beef in brine it would not spoil over the course of the Lenten fast. Earliest dates of corned beef dates back to England

of 1661. The term of corned is derived from the art of placing meat in a crock and covering it with a large rock-salt kernels termed "corns of salt" this preserves the meat. Interesting.

So here is to St Patty's day and cornbeef.

Rider Education - Troy Linnell

Thanks to Glen and Joe for setting up a great ride for Green Freeze Two. It was fun to go somewhere different. Last fall I attempted to set up a weekend ride going from Seattle to McMinnville Air Plane Museum, leaving there in the afternoon and heading down to Tillamook OR to visit the Air Museum leaving around noon Sunday and returning home. If anyone is interested please let me know.

Troy Linnell

In the News

1. Pacific NW Motorcycle Safety Course (February 28th), last day to sign up.
2. We still NEED door prizes for Green Freeze, this is something we depend on our members for, heck even a bag of Oreos would make someone happy!
3. It's time to start planning your year, put your ride card on your calendar so you know what's up next
4. Call Doug at the Tulip Inn in Mt Vernon if you're coming on the Lime Run weekend 1-800-599-5969 Sat April 30.
5. GWTA Washington State is on Facebook. Visit them at <http://www.facebook.com/group.php?gid=151660874853597>

Asst Dir Glen & Edee Disbrow

We met up with everyone at McDonalds for a nice ride in the sunshine to Lattin's Cider Mill. We had a great turn out for the egg stuffing. Great conversations while we were stuffing eggs. Jeanine was even color coordinating the candies to the eggs. Great job Jeanie!

Lattins provided us with apple fritters, coffee, and hot apple cider and well as some home made soup and garlic bread. Delicious! Thank you. Lattins, for all your folks, they are wonderful.

After we got through with the egg stuffing several of us went on a ride led by Ron and Margret. It doesn't get better than that. We went down to Wolf Haven near Tenino to check out the first of our Wing Washington sites. Ron and Margret then led us through the country side as only they know it. Sunday was our first 50 degree day this year and the sun was shining. We eventually wound up at the Firehouse in Orting and had a good dinner and even better conversation. Thanks to Ron, Margret, Dick, Bonnie, Dennis, and Terry and Janis for our first really wonderful dinner social this year. I hope we have many more to come. We really look forward to getting together with all of you guys.

Rider Education -- *What you should know about Motorcycle Helmets***Helmets Work**

Most activities have their own suitable protective gear and equipment. Motorcycling is no exception. Every rider and passenger should wear over-the-ankle footwear, long pants, a long-sleeved jacket, full-fingered motorcycle gloves, and a helmet manufactured to meet DOT (U.S. Department of Transportation) standards. Helmets work. Helmet effectiveness has been confirmed by responsible studies, while helmet myths – “helmets break necks, block vision and impair hearing” – have been consistently disproved. Safety conscious riders wear helmets by deliberate choice every time they ride; we know that you will, too.

What a Helmet Does for You

First, it is the best protective gear you can wear while riding a motorcycle. Think of it at the same time you think of your ignition key: Pick up the key; pick up the helmet. They go together. Helmet use is not a “cure-all” for motorcycle safety, but in a crash, a helmet can help protect your brain, your face, and your life. Combined with other protective gear, rider-education courses, proper licensing and public awareness, the use of helmets and protective gear is one way to reduce injury. You hope you never have to “use” your helmet, just like you hope you won't ever need to “use” the seatbelt in your car. But crashes do happen. We can't predict when or what kind they will be. You should not say to yourself, “I'm just running down to the store,” and not wear your helmet. In any given year, a lot of people make good use of seatbelts, and a lot of riders give thanks that they were wearing helmets.

Second, a good helmet makes riding a motorcycle more fun, due to the comfort factor: another truth. It cuts down on wind noise roaring by your ears; on windblast on your face and eyes, and deflects bugs and other objects flying through the air. It even contributes to comfort from changing weather conditions and reduces rider fatigue. Third, wearing a helmet shows that motorcyclists are responsible people; we take ourselves and motorcycling seriously. Wearing a helmet, no matter what the law says, is a projection of your attitude toward riding. And that attitude

is plain to see by other riders and non-riders alike.

How and Why a Helmet Works

Different helmets do different things. There are hard hats on construction and heavy-industry heads; football helmets on athletes' heads, and Kevlar® caps on military heads. None are interchangeable. Motorcycle riding helmets are very sophisticated and specialized for the activity. They've been developed carefully and scientifically over the years.

Four basic components work together to provide protection in the motorcycle helmet: an outer shell; an impact-absorbing liner; the comfort padding; and a good retention system. What we see first is the **outer shell**, usually made from some family of fiber-reinforced composites or thermoplastics like polycarbonate. This is tough stuff, yet it's designed and intended to compress when it hits anything hard. That action disperses energy from the impact to lessen the force before it reaches your head, but it doesn't act alone to protect you. Inside the shell is the equally important **impact-absorbing liner**, usually made of expanded polystyrene (commonly thought of as Styrofoam). This dense layer cushions and absorbs the shock as the helmet stops and your head wants to keep on moving. Both the shell and the liner compress if hit hard, spreading the forces of impact throughout the helmet material. The more impact-energy deflected or absorbed, the less there is of it to reach your head and do damage. Some helmet shells delaminate on impact. Others may crack and break if forced to take a severe hit; this is one way a helmet acts to absorb shock. It is doing its intended job. Impact damage from a crash to the non-resilient liner may be invisible to the eye; it may look great, but it probably has little protective value left and should be replaced. The **comfort padding** is the soft foam-and-cloth layer that sits next to your head. It helps keep you comfortable and the helmet fitting snugly. In some helmets, this padding can even be taken out for cleaning. The **retention system**, or chin strap, is very important. It is the one piece that keeps the helmet on your head in a crash. A strap is connected to

each side of the shell. Every time you put the helmet on, **fasten the strap securely**. It only takes of couple of seconds. To ride without your helmet secured would be as questionable as driving without your seatbelt fastened.

Helmet Care

Follow the manufacturer's care instructions for your helmet. Use only the mildest soap recommended. Avoid any petroleum-based cleaning fluids, especially if you own a polycarbonate helmet. Exposure to strong cleaning agents can cause the helmet to decompose and lose protective value. Keep your helmet's face shield clean. Normally, mild soap and water with a soft cloth will do the job. If it gets scratched, replace it. A scratched face shield can be difficult to see through. At night, it could dangerously distort your vision and your view of oncoming lights. A helmet looks tough and sturdy, but it should be handled as a fragile item. This means that you don't want to drop your helmet onto hard surfaces. It could ruin your helmet. Remember that its function is to absorb impacts.

Replacing Your Helmet

Replace your helmet if it was involved in a crash; it probably absorbed some impact shock. Some helmet manufacturers will inspect and, when possible, repair a damaged helmet. If you drop your helmet and think it might be damaged, take advantage of this service. Most helmet manufacturers recommend replacing your helmet every two to four years. If you notice any signs of damage before then, replace it sooner.

Why replace your helmet every few years if it doesn't appear damaged? Its protective qualities may deteriorate with time and wear. The chin strap may fray or loosen at its attaching points; the shell could be chipped or damaged. The best reason is that helmets keep improving. Chances are that the helmet you buy in a couple of years will be better – stronger, lighter, and more comfortable.

Thanks to the Motorcycle Safety Foundation

WING WASHINGTON - 2011

Wing Washington is a motorcycling event that will take you, your motorcycle, and your camera to many scenic and interesting locations throughout the state of Washington. We have compiled a list of 25 sites. Themes include: "Green Washington", Zoos & Wildlife, Gardens, and Chinese Restaurants. For long distance riders that enjoy a challenge, there are 12 bonus sites comprised of *Mannas & Harbors*.

Take a picture of your motorcycle (preferably with you in the picture) at each site you visit. The more sites you photograph the more chances you have to win cash and other prizes at the *Wing Washington* Banquet. Every site is worth one ticket.

Photos must be turned in at the *Wing Washington* Banquet on October 8, 2011. Write the site name and number on back of each site photo, please. Tickets for the cash prize drawings and other prize drawings will be issued to you when your photos are turned in and validated. If you cannot attend the Banquet, have a friend attending the Banquet submit them on your behalf.

The combined entry fee of \$35.00 per person includes the list of 37 *Wing Washington* sites (\$10) and admission to the Banquet (\$25), which is the *Wing Washington* closing event. The Banquet will be held on Saturday, October 8, 2011, 4PM at the Redmond VFW Post #2995, 4330 - 148th Ave NE, Redmond, WA 98052. The site list will be sent to you soon after your registration and entry fees are received, after January 1, 2011. GWTA Chapter E hopes you enjoy participating in *Wing Washington - 2011*. Ride safe and have fun!

GWTA Washington State Gathering

June 30 thru July 3, 2011
Jefferson County Fairgrounds
4907 Landes Street, Port Townsend, WA 98368

Our Rally Theme is Carnival

Tent/trailer Camping on site is FREE with registration.
On Site RV Camping: We have more than enough sites with power and water. The cost is ONLY \$30 for the whole rally. We highly encourage RVs to pre-register as quickly as possible. NOTE: You will pay for camping upon arrival (DO NOT INCLUDE WITH YOUR REGISTRATION FEES)

Fairground RV Sites: If you require full hook ups, within easy walking distance there are 18 sites for \$20 per night, many more with power and water (\$17/night).

Included for all: private showers and RV dump station use. No reservations; first come first serve. Details, a fairgrounds layout map, and much more rally information at: <http://www.gwta-wa.org/rally.htm>

Paid pre-registration by April 30, 2011 will receive a free Saturday meal ticket and a chance at a \$100 pre-registration drawing.

Paid pre-registration before June 15, 2011 receives a free Saturday meal ticket. Registrations postmarked June 15, 2011 or later will not be eligible for the meal or drawing. The meal is a pre-registration incentive for which we must have an accurate head count for the caterer.

Day passes on site only (Not eligible for meal or T-shirt)

- Included with registration:**
- Saturday Meal (Pre-reg. only)
 - Door Prizes
 - Pre-registration Drawing
 - Lots of Vendors
 - Carnival Games
 - Scenic Rides
 - Light Parade Judging
 - Bike Show & Shine
 - Rider Education

**STP Escort
July 9-10, 2011**

**Come help us support
the Cascade Bicycle Club.**

For twelve years, the Gold Wing Touring Association (GWTA) has provided up to 200 motorcyclists who patrol the route, equipped with radios and first aid kits. GWTA responds to mechanical problems and minor medical situations. They can radio for help in situations requiring medical assistance or rider transport.

If you are interested in helping GWTA Chapter V, we typically patrol 60 miles of roads between Vader, WA and Scappoose, OR and set up a base camp at Castle Rock High School. Contact our STP Focal, Lawrence Taft at 253-854-3117

Events and Activities

GWRRA
Invites you to
Wing Ding 33

Knoxville, Tennessee July 6-9, 2011

The much-anticipated return of a major motorcycle event to Knoxville, Tennessee, has created a buzz throughout the industry and we fully expect the biggest Wing Ding celebration ever! We are looking forward to a great event as Wing Ding 33 descends upon Knoxville! Centered between Cumberland Gap and "The Dragon", the ride to Knoxville features some of the best riding in the country!

Wing Ding 33, "Rollin' on Rocky Top", will be held in Knoxville, TN, July 6-9, 2011. Knoxville has expressed their joy in hosting Wing Ding and will do all they can to welcome GWRRA members and make this a memorable and successful event including several great tours, destination rides*, Riverboat cruises*, and more! **American Honda Motor Company** has already indicated an increased presence with their Demo team and is working with the city in an unprecedented effort to show their customer-appreciation by hosting an exclusive welcome party for Wing Ding attendees!

The indoor trade show will be held at the Knoxville Convention Center (KCC) with all exhibits under one roof and on one level! The Convention Center will be host to Opening and Closing Ceremonies, all seminars, food functions, Talent Show, and the J&M Evening Entertainment event. Downtown Knoxville also features a FREE Trolley service with access to downtown hotels, attractions, and the Convention Center.

Manufacturer Demos will be at Chilhowee Park along with all outdoor riding events/exhibitions, grand parade staging, camping and RV parking, and is the primary parking area for the entire event with shuttles to the Convention Center downtown!

With over \$40,000 in prizes to be given away, you won't want to miss out! Register today to save money and earn more chances to win great prizes! We look forward to seeing you there!

* Separate registration required, watch your email for updates and more information.

Green Freeze Ride 2

Once again it's that time of year -- GWTA Chapter V's Green Freeze! Green Freeze I got off to a cloudy start at Hinshaw's with rain in the forecast. Green Freeze II got off to a clear and sunny but cold start. It was great to see so many bikes (and people) out there ready to start the early riding season! Once your registration was complete, there was the usual donuts and coffee and the chance to purchase 50-50 tickets. The Jan & Feb drawings were to be 50-25-25, with a true 50-50 in March.

If you missed Green Freeze I and/or II, you still have a chance to join us for Green Freeze III. Hope to see you there!

Chapter Meeting

Visitors are always welcome at our GWTA Chapter V meetings. Our members come from all walks of life and have a common interest in our love for motorcycling and friendship. We are a family-oriented national motorcycle association and our motto is:

“Destination Friendship”

Our meeting is held the first Sunday of each month. Breakfast is at 8:00 a.m. and the meeting starts at 9:00 AM.

Puyallup Eagles
 202 5th Street NW
 Puyallup, WA 98371
 (253) 845-5021

Please park at the Park-N-Ride across the street. Thanks a bunch!!! So come on down and join us! Our web site also has a map showing you where we are.

Soup Social

The Souper Bowl Social was well attended and delicious. The social watchers were upstairs and the more serious ones downstairs. Rumor has it that Danny, Phyllis, Nic and Tom went home happier than usual. Thank you to Ron and Margaret again for the use of their home. *Bonnie Holdsworth*

Lattin's Egg Stuffing

Helping a worthy cause on February 13, 2011 - organized by Mike & Becky Wilcox.

Mike says, "I smell apple fritters, it must be time to go down and help Lattins Cider Mill with their little easter egg project. In the past few years a number of us have gone down to a little Cider Mill in Tumwater and helped put candy into little plastic eggs for Lattins annual easter egg hunt. This year that magic number is 40,000 little plastic eggs. NO WE DON'T DO THEM ALL. For a couple hours 2/3 we sit around , talk and laugh , put candy into eggs,&some in our mouths. For us doing this we get paid., NO not in money but in Apple Fritters, Do-Nuts, other sweet temptations, along with Hot coffee and Cider to wash it all down."

Dennis Ensey

Thanks from Me to you.. Again we out did ourselves at the annual Lattins Easter Egg stuffing. Thanks to chapter V,D,Q, and several unaffiliated friends and relatives that helped with this little outing. Get your calculator out and you do the math. 47 apple boxes of eggs were filled, and they estimate about 400 plastic eggs per box. The Lattin family again filled us with yummy sweets, coffee and hot apple cider. Then they surprised us further by bringin out Homemade chicken rice soup and french bread,, and if that was`nt enough they heated some of their homemade chili. I hope you did`nt leave hungry. The group I led got there about 10:45 and the room was almost full then. I heard someone say there was 49 of us helping this year. Thanks again to an awesome group. Just think they only have 24,000 more eggs to fill

Mike Wilcox

Cookie Bakers

A group of 9 cookie bakers met to make our Soldier's Home Veterans a treat for Valentine's Day. We had quite a production line going, mixing, cutting, baking, frosting and sprinkling. Judy and Dick D. went in search of something to put them in and came up with pizza boxes, they worked great and we have more left for another time too.

We finished in record time then went on a delivery run to Orting where we were very well received. We then went to lunch and visited the afternoon away with a very good feeling about our day.

Bonnie Holdsworth

Did Ya Know?

1. Some people have tattoos in plain sight and you can't even see them?
2. Danny, Phyllis, Nic and Tom had the magic numbers.
3. Ch V knows how to make soup!
4. Mike W is a good waiter, he even brings the creamer!
5. Ron spilled the eggs not the beans.
6. Vonda and Marlis had the blue ones.
7. A 150 mi bike day including egg stuffing is very respectable!
8. Some folks have already started Wing Washington.
9. Ron and Mona were newbies.
10. Fritters, soup, coffee and cider, oh yeah then we rode to lunch!!

Motorcycle Wisdom

1. Young riders pick a destination and go. Old riders pick a direction and go.
2. A good mechanic will let you watch without charging you for it.
3. Sometimes the fastest way to get there is to stop for the night.
4. Whatever it is, it's better to do it in the wind.
5. Two-lane blacktop isn't a highway, it's an attitude.
6. When you look down the road it seems to never end, but you better believe, it does.
7. Winter is nature's way to tell you to polish.
8. Motorcycle boots are NOT comfortable for walking. That's why they are called "motorcycle boots."
9. People are like motorcycles; each is customized a bit differently.
10. Sometimes the best communication happens when you are on separate bikes.
11. Good coffee should be indistinguishable from 50 weight motor oil.
12. The best alarm clock is sunshine on chrome.
13. A long ride can clear your mind, restore your faith and use up a lot of fuel.

Anniversaries
